

SA Migration Newsletter

01 / 2011

1. SA Migration International

SA Migration International was created out of the need for a specialist organization to assist people wishing to immigrate, volunteer, work, bring family, study or open businesses in South Africa.

We will **guide you through the entire process** to require the appropriate permit. Once we confirm that you will qualify for the visa, we will guarantee you a successful application. This is normally done in the **first consultation - which is for free.**

2. Immigration Bill 'unconstitutional'

27. Jan. 2011 By Sapa

Proposed changes to the Immigration Amendment Bill are "impractical", will violate the Constitution and destroy thousands of jobs, the chairman of an immigration practitioners' association said. V.102

3. SA business owners more optimistic than global counterparts

19. Jan. 2011 Sourced by SA - The Good News via Sapa

South African business owners are feeling confident about their business prospects for 2011.

SA business owners are more optimistic about 2011 than they were about last year, a survey released on Wednesday shows.

"While the strong rand will no doubt make business conditions tough for some this year - particularly those with an export focus - it seems South African business owners continue to be optimistic about the nation's economic landscape for the year ahead," said Leonard Brehm, national chairman of Grant Thornton South Africa. 4. Do we really need jobs & skills – Ostrichism and Home Affairs

11. Feb. 2011 By Chris Watters

The response of the Department of Home Affairs to the public input to the Immigration Amendment Bill, 2010, may lead some to believe that there are officials at Home Affairs who have their heads stuck so deep in the sand, they are in danger of needing a mineral exploration licence. V.116

5. Overall positive growth outlook say SA CEOs

26. Jan. 2011 PwC's 14th Annual Global CEO survey, and 2nd Annual South African Survey.

According to the latest PWC Annual Global CEO survey, 94% of South African CEOs are positive about growth prospects for them in South Africa three years from now.

Two years from the depths of recession, South African and global CEOs are confident about future growth, according to PwC's 14th Annual Global CEO survey, and 2nd Annual South African Survey. V.110

Consultancy firm PriceWaterhouseCoopers

The Johannesburg Stock Exchange, where multinational companies, many of which operate in Africa, are listed.

An updated study by consultancy firm PriceWaterhouseCoopers, "The World in 2050", projects that South Africa will be the seventh fastest-growing economy between now and 2050, with an average annual real growth rate of five percent.

Released last week, the revised version of "The World in 2050" also predicts that in purchasing power parity terms, the E7 group of emerging countries (China, India, Brazil, Russia, Mexico, Indonesia and Turkey) will overtake the G7 economies (US, Japan, Germany, UK, France, Italy and Canada) by 2020. 7. South Africa's Western Cape: the secret coast

01. Mar. 2011 by James Bainbridge, Lonely Planet Author

South Africa's Western Cape is full of famously delightful areas, such as the Winelands and Garden Route, but the West Coast is still a local secret. With its long, empty beaches and fishing towns, it's where South Africans go

on holiday. The rural region is one of the few areas where people address you in Afrikaans - before trying English if the only Afrikaans you know is *braai* (barbecue). V.117
